BRINE

BRINE, the primordial food of life, is the mixture of energized water and Himalayan Crystal Salt. This mixture is sometimes called "sole" (so-lay) which is derived from the Latin word "sol", meaning the sun. Sole is nothing but fluid materialization of sunlight.

When water combines with Himalayan Crystal Salt, the positive ions of the salt surround the negative ions of the water molecules and the negative ions of the salt surround the positive ions of the water molecules. The ions become hydrolyzed. In this process the geometrical structure of the salt and the water is changed and a totally new structure is formed. The crystalline structure of the BRINE is so profound that its vibration pattern lasts over 24 hours in our bodies. With BRINE, you can import the vibration pattern the body requires to heal.

Benefits

- The BRINE supplies the body with the natural energy stored in the crystals and the body can hold this up to 24 hours.
